Title: Project Management Professional  
Academic Year: 2010  
Instructor: Luis Ramos  
Telephone: (813) 917-8728  
EMAIL: lou@vesi7.com

Course description: This 35 hour course (five days) will present and expose students to all the required topics to prepare to pass the (Project Management Institutes’ (PMI®) exam. The course also has a hand on component to help the student to better understand the required concepts as outlined by PMI® (www.PMI.org)

Course Outline: This course will cover three (3) major areas:
  • The Project Management Framework
  • Introduction
  • Project Life Cycle and Organization
  • The Project Management Processes
  • Initiating
  • Planning
  • Executing
  • Monitoring and Controlling
  • Closing
  • The Project Management Knowledge Areas
  • Project Integration Management
  • Project Scope Management
  • Project Time Management
  • Project Cost Management
  • Project Quality Management
  • Project Human Resource Management
  • Project Communications Management
  • Project Risk Management
  • Project Procurement Management

Successful completion of this course will allow a student to identify the unique characteristics of a project and complete a 5x9 matrix of the project management process groups against the applicable knowledge areas. The student will be able to apply mathematical formulas to project management processes while completing scenario dependent practice PMP tests. Students will receive an editable CD with project templates of all the topics listed in the course outline.
